Adeyemi Ezekiel

Email: adeyemiezekiel26@gmail.com • Portfolio: adeyemiezekiel.vercel.app

Frontend Developer

Results-driven Frontend Developer and UX Engineer with years of experience building user-focused, high-performance websites using React.js, Next.js, and TypeScript. Expert in developing analytics dashboards and scalable solutions, driving 4x conversion growth and optimizing user experiences.

WORK EXPERIENCE

Kovio   **03/2025 – 08/2025**

Frontend Developer • Contractor   **Nigeria**

• Built Nigeria's #1 event marketplace using Next.js and TypeScript, implementing real-time booking and secure payment systems for thousands of anticipated users

• Optimized UX and performance, reducing page load times by 25% and achieving 4x conversion growth via data-driven design and behavioral analytics.

• Developed comprehensive analytics dashboards to track user interactions, enhancing scalability and user support for platform growth

Sight   **07/2024 – 10/2024**

Front End Developer • Contractor   **Australia**

• Developed comprehensive Next.js application with TypeScript for a multi-tenant security management platform serving company owners, managers, and security guards with role-based access control.

• Built modular component system using Next.js and TypeScript including ClientList, StaffDetails, Invoice Management, RouteTracking, and Report Generation components with CRUD functionality across 8+ core modules.

• Implemented dynamic patrol route management, alarm monitoring system, and scheduling interfaces with live data updates using Next.js API routes and TypeScript for type-safe development.

• Created comprehensive vehicle tracking system with GPS integration, maintenance logging, odometer tracking, and document management capabilities using Next.js server-side rendering for optimal performance.

OTrust   **03/2024 – 06/2024**

Frontend Developer • Contractor   **France**

• Developed responsive frontend interfaces using React.js for a multi-cryptocurrency exchange platform supporting LTC, BTC, ETH, and other digital assets.

• Built dynamic trading dashboards with live price feeds, transaction history, and portfolio management features using React components and state management libraries.

• Implemented robust client-side security measures and input validation using React best practices to prevent fraudulent activities and maintain platform integrity.

• Developed intuitive, responsive user interfaces for trading and wallet management, ensuring a seamless experience across desktop and mobile platforms.

EDUCATION

Bachelor's Degree in Computer Science
Ladoke Akintola University of Technology   Ogbomosho • 01/2022 - Present
